| RECENTLY RESOLVED ISSUES | 11 |

NEW ISSUES

| COMPONENT | IMPACT | ISSUE | REPORTED DATE | RELEASE DATE |
|--------------|---------------------------|--|---------------|--------------|
| API/MetaEd | Data Reporting | <p>In the StudentSpecialEducationProgramAssociation.LanguageAcquisition common type, data elements FrequencyOfServices (E1663) and HoursSpentReceivingServices (E1664) are required. These two data elements are reported alongside LangAcqServicesProvided (E1662). When descriptor value '00' (Services not Provided) is reported for LangAcqServicesProvided, there is no corresponding value to report for either FrequencyOfServices or HoursSpentReceivingServices.</p> <p>TEA will be updating FrequencyOfServices and HoursSpentReceivingServices to be optional so they can be omitted when LangAcqServicesProvided is reported as '00'. Going forward, business validation rules 41163-0055 and 41163-0056 will fire when these two data elements are omitted and a value other than '00' is reported for LangAcqServicesProvided.</p> | 03/25/24 | APRIL 2024 |
| API/MetaEd | Data Reporting | <p>Data element AttendanceZoneCampus (E1633) is currently part of the key for the StudentResidentialFacilityAssociation.StudentResFacAssocSet common type.</p> <p>TEA will be updating the key for this common type to only be data element StudentResFacAssocSetBeginDate (E3064).</p> | 04/02/24 | APRIL 2024 |
| Class Roster | Business Validation Rules | <p>The following Class Roster business validation rule is firing incorrectly due to sections attached to CourseCodes that begin with "SA", "SE", "SR", "SS", or "8" being promoted for the Staff>Teacher Class Assignment Category/Subcategory.</p> <p>30305-0004</p> <p>TEA will be updating the promotion logic for the Staff>Teacher Class Assignment Category/Subcategory to exclude promoting course sections that are attached to CourseCodes that begin with "SA", "SE", "SR", "SS", or "8".</p> | 4/8/24 | APRIL 2024 |
| ECDS | Business Validation Rules | <p>The following ECDS business validation rules are not firing due to incorrectly being associated with the Student > Enrollment subcategory:</p> <p>40110-0173 40110-0179 40110-0184 40110-0206</p> <p>TEA will be updating the configuration of these rules to the correct subcategory Student > Enrollment (School Association) for the rules to fire.</p> | 03/20/24 | APRIL 2024 |

UPDATED ISSUES

| COMPONENT | IMPACT | ISSUE | REPORTED DATE |
|------------|----------------|---|---------------|
| API/MetaEd | Data Reporting | <p>* The ReportingPeriodExt (TX) does not allow multiple CalendarDate references to be reported for each ReportingPeriod (E0934). Currently, only one CalendarDate reference can be reported for each ReportingPeriod.</p> <p>TEA will be updating the key fields in the ReportingPeriodExt (TX) entity for the 2023-2024 school year. Going forward, the key fields will be the CalendarDate reference and the ReportingPeriod data element.</p> | 07/17/23 |

* An asterisk indicates which column(s) was updated

APRIL 2024 RELEASE

| COMPONENT | IMPACT | ISSUE | REPORTED DATE |
|--------------|---|---|---------------|
| Class Roster | CLS2-100-003 Staff Class Assignment Report | The Class Roster Winter report CLS2-100-003 is not running successfully. Users receive a report status of 'Failed' when they run the report. | 03/08/24 |
| RF Tracker | Data Promotion | <p>If the FirstName (E0703), MiddleName (E0704), or LastName (E0705) value for a staff or student exceeds 60 characters, it will cause errors when the data is promoted to the Core data mart.</p> <p>TEA will be updating the Core data mart to allow the FirstName, MiddleName, and LastName records to be up to 75 characters, which would match the Ed-Fi standard.</p> | 07/31/23 |

MAY 2024 RELEASE

| COMPONENT | IMPACT | ISSUE | REPORTED DATE |
|-----------|--|---|---------------|
| DMC | Level 1.5 Filters | <p>'Descriptor Value' filter results are being triggered for Landing Zone only data elements, such as Term and Achievement Category. These data elements do not have any TSDS reportable values and cannot be corrected with a descriptor mapping. LEAs should ignore these Level 1.5 filter results until a software release resolves the issue. The data is flowing to TSDS correctly despite what the message on the filter result states.</p> <p>Workaround: LEAs can use the 'Verified' flag to hide these filter results.</p> | 02/01/24 |
| ECDS | ECD0-000-002 Early Childhood Assessment Summary | An issue has been identified on the ESC version of the ECD0-000-002 report that may cause the report to display incomplete data or no data at all. | 03/13/24 |

2024-2025 SCHOOL YEAR RELEASE

| COMPONENT | IMPACT | ISSUE | REPORTED DATE |
|------------|----------------|--|---------------|
| API/MetaEd | Data Reporting | <p>The data element ProgramType (E1337) must be reported when reporting students with a ParentalPermission (E0896), including the descriptor value 'C' (Parent or Guardian Denied Placement of an EB/EL in any Special Lang Program). Currently, the ProgramType descriptor table does not contain a program for parent denial. TEA will evaluate the table for possible changes to the 2024-2025 TEDS to resolve the issue.</p> <p>Workaround: TEA does not promote the value for ProgramType to any PEIMS or Core submission so LEAs may report any value for students being reported with a ParentalPermission of 'C'.</p> | 11/09/23 |
| API/MetaEd | Data Reporting | <p>The InstructionalSettingSets common type does not allow for multiple instructional settings to be reported with the same InstructionalSettingBeginDate (E3025). When data is reported with the same InstructionalSettingBeginDate, a Level 1 error is triggered.</p> <p>TEA is evaluating the data standards to determine what changes will need to be made to allow for multiple instructional settings to be reported with the same begin date.</p> <p>Workaround: The LEA should load only one InstructionalSettingSet. A student who receives speech therapy services and who also receives instructional services through another InstructionalSetting (E0173) should be reported with the primary setting (not with 00) and a SpecialEducationProgramService (E3058) 25 (Student Receives Speech Therapy Along With Service Through Another Special Education Instructional Setting).</p> | 11/10/23 |

| | | | |
|------------|--------------------|---|----------|
| API/MetaEd | Data Reporting | <p>The StaffServiceSets common type does not allow for multiple staff services to be reported with the same StaffService (E3072) descriptor value and StaffServiceBeginDate (E3060). When data is reported with the same StaffService and StaffServiceBeginDate, a Level 1 error is triggered. This may impact special education aides who provide the same service for multiple grade levels.</p> <p>TEA is evaluating the data standards to determine what changes will need to be made to allow for multiple staff service sets to be reported with the same StaffService and StaffServiceBeginDate values.</p> <p>Workaround: For the parallel year, LEAs should either only provide one StaffServiceSet for the instructional aide or provide a different StaffServiceBeginDate for the same StaffService to avoid errors.</p> | 11/17/23 |
| IODS | Pre-Populated Data | <p>Administrative campuses are not included in the campus data that TEA is pre-populating in each LEA's IODS. This can cause errors when reporting non-instructional staff at an administrative campus. TEA is continuing to evaluate this issue to determine the long-term solution.</p> <p>Workaround: Vendors are able to publish these additional campus records to the Schools resource. A GradeLevel (E0017) must be supplied when reporting a campus. Any value can be reported for an administrative campus since the GradeLevel is not promoted to the PEIMS and Core data marts for these campuses.</p> | 10/13/23 |
| PEIMS | 40100-0095 | <p>Rule 40100-0095 is firing when data element UnaccompaniedYouth (E1084) is not reported for a Prior Year Leaver who is reported with a value for the HomelessStatus (E1082) data element. Prior Year Leavers do not report any data regarding UnaccompaniedYouth status.</p> <p>LEAs can disregard this validation in the parallel PEIMS Fall and Summer Submissions. TEA will be updating the rule for 2024-2025 to no longer apply to Prior Year Leavers.</p> | 01/31/24 |

| | | | |
|-------|----------------|--|----------|
| PEIMS | 40100-0156 | <p>In the Upgrade TEDS 2024.2.1 publication, descriptor value '0' was removed from the C122 TitleIPartAParticipant descriptor table. As such, TEA is no longer expecting StudentTitleIPartAProgramAssociation for every enrolled student.</p> <p>However, TEA did not remove fatal validation rule 40100-0156, which requires StudentTitleIPartAProgramAssociation data for all students with an AsOfStatusLastFridayOctober (E3007) equal to 'B', 'D', 'F', or 'X', from the TSDS Upgrade PEIMS environment.</p> <p>TEA has downgraded this rule in the PEIMS parallel environment from a fatal to a special warning. LEAs can ignore this validation in the parallel PEIMS Fall submission. TEA will be updating the 2025 data standards to remove this validation rule.</p> | 01/09/24 |
| PEIMS | 41461-0013 | <p>Rule 41461-0013 is firing for Prior Year Leavers because those students will not be reported with a value of 'B', 'D', 'F', or 'X' for the AsOfStatusLastFridayOctober (E3007) data element.</p> <p>LEAs can disregard this validation error in the parallel PEIMS Fall submission. TEA will be removing this validation rule for 2024-2025 school year.</p> | 01/25/24 |
| PEIMS | Data Promotion | <p>If a student has multiple Language (E3033) values for either the 'Home Language' or 'Student Language' Language Use (E3035) in their IODS, the system will only promote one Language value each Language Use.</p> <p>After promoting data to PEIMS, LEAs should utilize the Data Search functionality to verify the correct home language and student language values promoted for their students.</p> <p>TEA is evaluating the issue to determine what changes will need to be made to ensure the correct language values are promoted for the home language and student language.</p> | 12/28/23 |

| | | | |
|---------|---|---|----------|
| PEIMS | Data Promotion | <p>When a student is reported in the PriorYearLeaver entity with an ExitWithdrawType (E1001) not equal to '01' (Graduate), and IndividualGraduationCommitteeGraduateIndicator (E1562) is not equal to 'true' the data element is promoted to PEIMS with a value of '00'. The result is causing rule 40203-0005 to fire.</p> <p>TEA will update the PEIMS promotion logic to not promote a value when IndividualGraduationCommitteeGraduateIndicator is not equal to 'true'.</p> | 01/24/24 |
| PEIMS | Data Promotion | <p>When a student is reported in the PriorYearLeaver entity with an ExitWithdrawType (E1001) not equal to '01' (Graduate) and FHSPDistingLevelGraduate (E1542) is not equal to 'true' the data element is promoted to PEIMS with a value of '0'. The result is causing rule 40203-0012 to fire.</p> <p>TEA will update the PEIMS promotion logic to not promote a value when FHSPDistingLevelGraduate is not 'true'.</p> | 01/24/24 |
| PEIMS | Data Promotion | <p>When a student's data is published to the IODS with no value for the EndorsementCompleted (E3021) data element, the PEIMS Fall promotion logic will promote the value with a '0' to the PEIMS data mart. This is causing validation rule 48011-0028 to misfire when a student's DiplomaType (E0806) is not a value of '34', '35', '40', '54', '55', '56' or '57'.</p> <p>TEA will be updating the PEIMS Fall promotion logic to no longer default a value of '0' when the EndorsementCompleted is not supplied in the IODS. LEAs can ignore this validation rule in this scenario for the remainder of the parallel submission year.</p> | 02/06/24 |
| SPPI-14 | SPP0-000-002 TSDS SPPI-14 Expected Student Counts Report | <p>The SPP0-000-002 report is running longer than expected. Please note that the report will process but it may take a few hours to complete. TEA will be improving the performance of this report for the 2024-2025 school year.</p> <p>Reminder: This report is only available at the ESC-level. The student counts on the report should match the number of students that promote to the SPPI-14 data mart. LEAs are encouraged to promote their SPPI-14 data to ensure accurate submission data in the parallel environment.</p> | 02/09/24 |

RELEASE TBD

| COMPONENT | IMPACT | ISSUE | REPORTED DATE |
|--------------|---|---|---------------|
| API/MetaEd | Data Reporting | <p>The CourseTranscript common type does not allow for multiple course transcripts to be reported with the same CourseCode (E3071) with different course sequence codes for a student. When data is loaded with the same CourseCode, a Level 1 error is triggered.</p> <p>TEA is evaluating the data standards to determine what changes will need to be made to allow for multiple course transcripts to be loaded with the same CourseCode for a student.</p> | 01/26/23 |
| Class Roster | <p>CLS1-100-006 Fall Submission Summary Report</p> <p>CLS2-100-003 Winter Staff Class Assignment Report</p> <p>CLS2-100-006 Winter Submission Summary Report</p> | <p>When these reports are run for the first time a status of 'undefined' is displayed. Once the refresh button is clicked, the status appropriately displays 'in progress'. This issue does not impact the generation of the report.</p> <p>Workaround: LEAs can click the 'refresh' button to display the correct status.</p> | 05/26/23 |
| DMC | L1.5 Filters - Unique ID Staff/Student | <p>If the FirstName (E0703), MiddleName (E0704), or LastSurname (E0705) value for a staff or student exceeds 60 characters, it may cause an invalid L1.5 Filter.</p> <p>TEA will be updating the eScholar Unique ID application to allow the FirstName, MiddleName, and LastSurname data elements to be up to 75 characters, which will match the Ed-Fi standard.</p> | 07/31/23 |

RECENTLY RESOLVED ISSUES

The following issues have been resolved since the last publication of this document.

| COMPONENT | IMPACT | ISSUE | RESOLUTION DATE |
|--------------|---|---|-----------------|
| Class Roster | Business Validation Rules | <p>The following Class Roster business validation rules are not firing due to incorrectly being associated with the Student > Enrollment subcategory:</p> <p>40110-0223 40110-0224</p> <p>TEA will be updating the configuration of these rules to the correct subcategory Student > Enrollment (School Association) for the rules to fire.</p> | 04/16/24 |
| DMC | Level 2 Validations - Charter School Waitlist | <p>LEAs running Level 2 Validations for the Charter School Waitlist submission are receiving a 'Failed - System Error' validation request status for the Campus, Enrollment (School Association), and Student Basic Information subcategories.</p> <p>Workaround: This issue is unique to Level 2 Validations. LEAs should proceed with their Charter School Waitlist parallel testing in the downstream Core application until TEA is able to resolve the issue.</p> | 04/16/24 |
| PEIMS | 40100-0199 | <p>Validation rule 40100-0199 is misfiring because the IBCVendor (C226) descriptor table has not been updated with the latest descriptors for the 2023-2024 school year.</p> <p>TEA will be updating the descriptor table with the latest descriptors for the 2024-2025 school year. LEAs can ignore this validation rule for the remainder of the parallel submission year.</p> | 04/16/24 |
| PEIMS | Data Promotion | <p>A PEIMS Mid-year data promotion issue has been identified with the Finance > Actual subcategory. The EndDate (E3020) was included in the promotion logic and it should not have been.</p> <p>TEA will be updating the PEIMS Mid-year promotion logic to correct the issue. Additionally, for the 2024-2025 school year, BeginDate (E3010) and EndDate were removed from the PriorYearActualExt entity in TEDS.</p> | 04/16/24 |

| | | | |
|-------|----------------|--|----------|
| PEIMS | Data Promotion | <p>A PEIMS Mid-year data promotion issue has been identified with the Education Organization > Campus subcategory. Campuses with a status of 'Under Construction' are not included in the data promoted to the PEIMS data mart.</p> <p>TEA will be updating the Mid-year promotion logic to include Under Construction campuses from the prior school year.</p> | 04/16/24 |
| PEIMS | Data Promotion | <p>If a student is reported in the PriorYearLeaver entity with an AsOfStatusLastFridayOctober (E3007) equal to 'A' and is also reported in the Student entity with an AsOfStatusLastFridayOctober equal to 'B', 'C', 'D', or 'E' the PEIMS application issues an ORA unique constraint (duplicate) error when promoting data.</p> <p>TEA will be updating the PEIMS Fall data promotion logic to avoid this promotion error.</p> | 04/16/24 |
