TSDS ROADMAP | 2019 - 2023

Terri Hanson and Leanne Simons | July-August, 2019

I.   **ODS Upgrade: Ed-Fi 3.0**

II. **studentGPS® Dashboards: Transition**

III. **PEIMS: Legislative Changes**

IV. **SLDS 2019 Grant Application**

AGENDA

ODS Upgrade: Ed-Fi 3.0

TEA is planning to update the TSDS Operational Data Store (ODS) to Ed-Fi version 3.x in the 2021-2022 school year. Upgrading to the latest version of Ed-Fi will allow for the following:

- The ability for LEAs to submit transactional data via Ed-Fi APIs;

- The ability for LEAs to submit data to the agency from multiple source systems utilizing the Ed-Fi data standard;

- Achieving the goal of one data collection thus reducing redundant data collections;

- Reducing TEA-specific ODS extensions and complexity by aligning with the Ed-Fi data standards and Ed-Fi ODS schema when possible;

- Improving system performance for LEA data submission;

- Leveraging Ed-Fi tools and utilities to support data standard management and documentation; and

- Reducing time LEAs spend preparing data for submission to TEA.

Additional Resource: Contract Data Analyst for mapping and Data Standards work.

II. studentGPS® Dashboards: Transition

III. PEIMS: Legislative Changes

IV. SLDS 2019 Grant Application

AGENDA

- In order to provide maximum flexibility to LEAs and leverage the move to the Ed-Fi 3.x ODS, TEA will no longer host the studentGPS® Dashboards beginning in the 2020-2021 school year.

- In 2020-2021, ESCs and LEAs can choose a Dashboards hosting option that most aligns to their needs. Hosting will be offered at the ESC and local levels.

- LEAs on the TEA-hosted Dashboards as of July 31, 2019, will be supported throughout the 2019-2020 school year, but no additional LEAs will be onboarded.

- LEAs wishing to onboard in the 2019-2020 school year and after will work with a designated team at ESC 13.

- TEA is finalizing the transition plan and will work with the ESCs regarding next steps throughout the upcoming school year.

IV. **SLDS 2019 Grant Application**

AGENDA

- Institute of Education Sciences (IES), Department of Education has announced an invitation for SEAs to apply for the 2019 SLDS Grant.

- This grant has an infrastructure upgrade component that compliments the TSDS ODS 3.0 work.

- The application is due September 17, 2019.

- The initial objective will be to determine a set of outcomes that meet the grant guidelines and will help us meet our infrastructure upgrade and data usage goals.
