BACKGROUND

- From the 2019 legislative session, Section 1.014 of House Bill (HB) 3 requires the commissioner to adjust the average daily attendance of a school district or open-enrollment charter school under Section 48.005 that offers **up to an additional 30 days of half-day instruction for students enrolled in prekindergarten through fifth grade.** This will be done by increasing the average daily attendance of the qualifying district or school by the amount that results from the quotient of the sum of attendance by students for each of the 30 additional instructional days of half-day instruction that are provided divided by 180.

- In addition to three (3) new data elements, regular attendance and staff data will also be **included in the PEIMS Extended Year submission.**

BACKGROUND

BACKGROUND

Federal Perkins legislation that governs state and local CTE programs using federal funds was reauthorized and signed into federal law on July 31, 2018.

The current method Texas uses to meet previous Perkins IV reporting requirements is insufficient to meet Perkins V reporting requirements.

Perkins V requires State Education Agencies to report specific CTE indicators that are defined differently than what was previously outlined in Perkins IV.

College, Career, and Military Preparation

Ryan Merritt State Director, Career and Technical Education

Steve Smith Project Manager, College, Career, and Military Preparation Division

CTE information is reported in the **PEIMS Fall Submission.**

- In order to meet the legislation requirements, the StudentProgramExtension complex type was modified to remove the following data element:
    - E0031 CAREER-AND-TECHNICAL-ED-IND-CD (TX-CareerAndTechnologyEd)

- The StudentCTEProgramAssociationExtension Complex Type was removed from the PEIMS Fall Submission and instead will be reported in the PEIMS Summer Submission.

- Sunset of the CareerAndTechnicalEducationCourseExtension complex type from TEDS.

- Beginning in the 2020-2021school year, TEA will calculate the appropriate Career and Technical (CTE) Indicator code(s) to assign to each student that does or does not participate in a CTE program. The data used for this calculation will include:
  - course completion records from the PEIMS Summer submission.
  - where the student's **Course Sequence Code is 0, 2, 5, or 9 and Pass/Fail Indicator is 1.**

- The data will be stored to a table in TEA's main database that includes
  - the calculated CTE Indicator
  - Program of Study Indicator (as defined by CCMP division)
  - Statewide or Regional Program of Study Indicator
  - State Career Cluster ID and
  - Federal Career Cluster ID.

**Information regarding Programs of Study or Career cluster can be found on the Career and Technical Education webpage https://tea.texas.gov/academics/college-career-and-military-prep/career-and-technical-education.

E	**CTE Explorer** A student completing and passing two or more high-school CTE courses as defined by 19 TAC Chapter 126 (C), 127 (B) or 130, for at least two credits, not within the same program of study, and not a participant, concentrator or completer.
6	**CTE Concentrator** A student completing and passing two or more high-school CTE courses as defined by 19 TAC Chapter 126 (C), 127 (B) or 130, for at least two credits **within the same program of study** and not a completer.
