CHANGES TO EXISTING CODE TABLES

TEA program areas have requested the addition of a new code for American Sign Language (ASL) to properly identify ASL as a language option. This new option will allow for proper tracking of the ASL population and will assist the agency and local education agencies (LEAs) with targeting support for deaf/hard of hearing English learners.

Question:

In TREx, districts will be receiving whether a student earned an Industry Certification. They are to just be made aware that they were submitted by another District with an industry certification. They won't enter it into their SIS correct?

Districts monitor for Accountability/A-F if their students have met CCMR points. If they know a student already earned an industry certification from another district, yet they cannot enter it into their SIS, they are going to have to maintain this on a separate screen.

Response:

Because the IBCs need to be transmitted via TREx, each LEA needs to have a way to transmit this information. It is the decision of the receiving LEA on how to maintain this information going forward.

Question:

Can you please address the overlap of the new POST-SECONDARY-CERTIFICATION-LICENSURE-EARNED that will be reported vs. the existing records we send for Certification Licensures Performance Acknowledgements?

Response:

The performance acknowledgement is just one of five acknowledgements that can go on the high school transcript. (There is an element for each one). It is solely used as a distinction for students. There are guidelines for the performance acknowledgement in section 19 TAC §74.14 of the graduation requirements. It's the district's responsibility to review any license or certification earned by a student and determine whether the student has earned a performance acknowledgement, based on whether the licenses or certification meets the guidelines in 19 TAC §74.13(e). This means a school district could potentially award an acknowledgement for a license or certification that is not on the list of certifications that the College, Career, and Military Preparation Division is working on. Because the eligibility for the performance acknowledgement is determined at the local level, the field for the acknowledgement is free form.
