Description of Begin and End Date Data Element Definitions

This document is an appendix to the Texas Education Data Standards (TEDS) Data Element Definitions document. Typically, a BeginDate is the date upon which something is considered to take effect, and an EndDate is the date upon which something is considered not to be in effect.

This document lists all the data elements in TEDS that are reported with begin and end dates indicating when the data element was in effect or should no longer be considered in effect. In addition, for each of the data elements listed, definitions are provided for the begin date and end date in the context in which it is reported.

This document is organized alphabetically by TEDS domain, then by the entity within the domain, then by sub-entity within the entity.
