

**PURPOSE for Prekindergarten Progress Monitoring Tool and Kindergarten Assessment:**

- Teachers have a comprehensive understanding of children's skills as they enter their classroom. They can use this information to refine teaching practices and curriculum to meet the individual needs of their students so that students have the greatest opportunity for success.
- Families can become more engaged in their children's prekindergarten and kindergarten experience when they know more about their children's skills early in the year and can reinforce skill building at home. Children whose parents are involved in their education are more likely to succeed.
- Teachers, principals, and school administrators can focus training, professional development and resources in areas that will support student achievement.
- Schools and early childhood programs can evaluate aggregate data to align expectations, curriculum, professional development, and family involvement to best prepare students for kindergarten and beyond.
- State policymakers can use aggregate longitudinal child outcome information to ensure that the state's educational system supports teachers, families, and communities to maximize student achievement.

**Why do we collect prekindergarten progress monitoring data?**

- To evaluate academic growth in the areas of health and wellness, language and communication, emergent literacy – reading and writing, mathematics and physical development to assist families, educators, administrators, community stakeholders and policy makers with identification of strengths and opportunities to inform resource prioritization, classroom instruction and development of action plans.

**Why do we collect beginning of year kindergarten data?**

- The beginning of year kindergarten data can assist educators in multiple ways. The data may inform kindergarten classroom instruction and intervention in areas where gaps in learning are evident, inform development of strategies and targeted instruction for prekindergarten classroom, assist communities with development of action plans to provide support for young children and provide the Texas Education Agency with information needed to develop statewide supports for readiness.

**\*The following information provides ESCs, LEAs, and ECDS Assessment Vendors details of the 2023-2024 Kindergarten and Prekindergarten Commissioner's list of approved assessments, and their associated assessment identification codes, academic subjects, min/max score ranges and readiness/proficiency ranges. This document should be used as a support resource when validating an LEA's assessment data for the ECDS data collection.**
