Frequently Asked Questions

Why is the residential facility inactive?

Once the RF Tracker Submission is closed, if a residential facility has no students reported for the current school year, then the residential facility is set to inactive for the next school year. The process checks the data from the Student Residential Facility Association for all LEAs.

Additional information can be found in Knowledge Base (KB) article [TDSKB-589](#) on how to request an update to a residential facility, in case the residential facility needs to be re-activated.

Spring Training Questions & Answers

1. What triggers a Residential Facility (RF) review from TEA?

All LEAs in Texas will be monitored every six years, at a minimum, in a scheduled cycle. Cyclical monitoring schedules are published on the TEA website in two-year increments. LEAs selected for monitoring each school year will be reviewed in three groups. Additional information about cyclical monitoring can be found at <https://tea.texas.gov/academics/special-student-populations/review-and-support/differentiated-monitoring-and-support-dms>.

2. Who should the Education Service Center (ESC) contact if the Residential Facilities report lists a facility outside of their region?

Please enter a TIMS ticket with the information and request changes to get the report corrected. Additional information can be found in KB article [TDSKB-589](#) on how to request an update to residential facilities.

3. Does the RF Tracker program area still recommend for LEAs to load student data into TSDS on a monthly basis?

Yes. The RF Tracker program area recommends LEAs load student data into TSDS on a monthly basis.
