Data Element Updates

- Updated Data Element Reporting Requirements for the added and deleted data elements in the StudentChildFindAssociationExtension complex type

****TX-EarlyChildhoodTransition Complex Type**

The TX-EarlyChildhoodTransition complex type represents information for a student receiving early childhood intervention who may be eligible for services under Part B Special Education.

ORIGINAL-ECI-SERVICES-DATE (E17X1) is the month, date, and year when an infant or toddler, from birth through age 2, became eligible to participate in the early childhood intervention program.

ECI-NOTIFICATION-DATE (E1712) indicates the month, day, and year the *LEA Notification of Potentially Eligible for Special Education Services* was sent by the early childhood intervention (ECI) contractor to the Local Education Agency (LEA) to notify them that a child enrolled in ECI will shortly reach the age of eligibility for Part B services and the child is potentially eligible for **early childhood special education (ECSE)** services under Part B. ~~early childhood special education (ECSE)~~. The LEA Notification constitutes a referral to the LEA for an initial evaluation and eligibility determination of the child which the parent may opt out from the referral.

ECI-TRANSITION-CONFERENCE-DATE (E1713) indicates the month, day, and year when the transition conference was held (for a child receiving early childhood intervention (ECI) services) among the lead agency, the family, and the LEA where the child resides to discuss the child's potential eligibility for early childhood special education (ECSE) services **under Part B**.

Child Find Collection:

For the Child Find collection ~~the a~~ **ECI-TRANSITION-CONFERENCE-DATE (E1713)** will only be reported for the SPPI-12 child-specific timeframe. For a child to be included in the compliance status determination for SPPI-12, the child:

1. Needs to have **been** receiving ECI services for **90 calendar days or more than 90 days** before his/her third birthday,
2. Must have had a transition conference less than nine months, but **more than** 90 days before his/her third birthday where it is determined that the child is potentially eligible for Part B Early Childhood Special Education Services (ECSE).

Data Element Updates

If there is no transition conference held between the agency providing ECI services, the family, and the LEA, then the LEA should **NOT** report ECI-TRANSITION-CONFERENCE-DATE (E1713) **with the same date reported for ECI-NOTIFICATION-DATE (E1712)**. If there was a transition conference held, the LEA should report the date the conference was held for the ECI-TRANSITION-CONFERENCE-DATE (E1713).

DR4

****TX-ChildFindInitialEvaluation Complex Type**

The TX-ChildFindInitialEvaluation complex type represents information for the initial evaluation for Special Education Services.

PARENTAL-CONSENT-DATE (E1714) indicates the month, day, and year of the first instructional day following the date on which the Local Education Agency (LEA) received written consent for the full individual and initial evaluation (FIIE) from the student's parent. The date entered for this data element counts as day 1 of the timeframe required for completing the FIIE.

LEAs must use the date the LEA received parental consent to identify the next instructional day and then enter this date as the PARENTAL-CONSENT-DATE (E1714) unless a reporting exception applies.

Parental Consent Date Reporting Exception

An exception to the normal reporting of the PARENTAL-CONSENT-DATE (E1714) occurs when two criteria are met pertaining to both the date when the LEA received parental consent and the date when the FIIE was completed:

- 1. LEA receives parental consent on the last instructional day of the school year before the summer OR during the summer and prior to the first instructional day of the next school year AND**
- 2. LEA completes the FIIE (i.e., INITIAL-EVALUATION-DATE (E1715)) during the summer and prior to the first instructional day of the next school year.**

Under normal circumstances, the PARENTAL-CONSENT-DATE (E1714) would be reported as the first instructional day of the next school year. However, because the FIIE was completed during the summer, the PARENTAL-CONSENT-DATE (E1714) reported should be the last instructional day of the prior school year.

If an LEA does not report the last instructional day before the summer for the PARENTAL-CONSENT-DATE (E1714) when these criteria are met, then PARENTAL-CONSENT-DATE defaults to the first instructional day of the next school year and the LEA will receive a data validation error because the PARENTAL-CONSENT-DATE reported occurs after the INITIAL-EVALUATION-DATE (E1715). The INITIAL-EVALUATION-DATE must not be before the PARENTAL-CONSENT-DATE. Reporting the PARENTAL-CONSENT-DATE (E1714) as the last instructional day before the summer break ensures the INITIAL-EVALUATION-DATE (E1715) occurs after the PARENTAL-CONSENT-DATE (E1714).

CONSENT-TO-EVALUATION-RECEIVED-DATE (E17X2) is the month, day, and year the Local Education Agency (LEA) received written consent for the full individual and initial evaluation (FIIE) from the student's parent.

Frequently Asked Questions

If the PARENTAL-CONSENT-DATE (E1714) is the last day of school, what would the Local Education Agency (LEA) report as the INITIAL-EVALUATION-DATE (E1715)?

The LEA should always report the actual date the initial evaluation took place for the data element INITIAL-EVALUATION-DATE (E1715).

The additional guidance discussed during the training was around the former PARENTALCONSENT-DATE (E1714), which has been replaced with the new data element, CONSENT-TO-EVALUATION-RECEIVED-DATE (E1738). When the CONSENT-TO-EVALUATION-RECEIVED-DATE (E1738) date occurs during the summer (or on the last day of school), and the INITIAL-EVALUATION-DATE (E1715) also occurs during the summer, the LEA should backdate the CONSENT-TO-EVALUATION-RECEIVED-DATE (E1738) to the last instructional day in the prior school year.

When the CONSENT-TO-EVALUATION-RECEIVED-DATE (E1738) occurs during the summer (or on the last day of school), and the INITIAL-EVALUATION-DATE (E1715) takes place on the first instructional day of school or later during the new school year, then the LEA would report the CONSENT-TO-EVALUATION-RECEIVED-DATE (E1738) as the first instructional day of the new school year.

Frequently Asked Questions

How would an LEA report STUDENT-ABSENCES-WITHIN-TIMEFRAME (E1711) for a student attending an Optional Flexible School Day Program (OFSDP)?

For a student who attends an OFSDP, if the student were certified by the teacher of record or otherwise appropriately documented to have attended school on the day in question, then the student would not be considered absent. However, if there is no certification or documented record that the student attended school on a particular day, the student would be counted absent. The data element, STUDENT-ABSENCES-WITHIN-TIMEFRAME (E1711) would be reported for these students.

Frequently Asked Questions

Should students with an effective date less than 90 calendar days before their third birthday be reported under SPPI-11?

In the 2022-2023 school year, any child reported with an effective date less than 90 calendar days before their third birthday must be reported using the StudentChildFindAssociationExtension and Early Childhood Intervention (ECI)-related data elements. This includes the ECI-NOTIFICATION-DATE (E1712), ECI-TRANSITION-CONFERENCE-DATE (E1713), and ORIGINAL-ECI-SERVICES-DATE (E1737).

The Child Find Collection automatically determines if the student's compliance will be determined through SPPI-11 or SPPI-12.
