Reminders

TREx Notifications and Purges are PAUSED over breaks in the school year, such as annual breaks for Winter, Spring, and Summer. (During the regular school year requests and records are purged after 14 calendar days). Records and requests will be retained in TREx until the windows for purging are reset to their normal length by the TREx subject matter expert.

TREx users are encouraged to promptly save records received through TREx to avoid loss after the regular purge process cycle occurs.
