

- Submission Recap:**
- Each year, the TSDS team collaborates with the Charter School Division to determine the baseline number of charters expected to submit, accounting for newly opened and recently closed charters.
  - Ninety-eight percent of LEAs were in Complete status by the morning of the submission due date.
    - Two extensions were granted.
- 

- Lessons Learned:**
- Data Validation rules need to be added to the submission to ensure the students' Social Security or 'S' numbers are reported correctly.
  - Understanding how the charters are supported by ESC staff or a vendor is helpful in the process of outreach and support.
- 

- What Changed and What's Next:**
- 2025-2026: No changes were implemented for this school year.
  - 2026-2027: New validation rules will be introduced, including:
    - Applying some existing rules from other collections such as the fatal 40100-0012 to the CSW Submission. New validations to address incorrect Social Security or 'S' numbers.
- See Reference Materials section below for details.*
- 

- Frequently Asked Question(s):**
- Q: Why is Campus 041 promoting into the data mart and triggering a fatal error in my CSW Submission data? The campus was closed this year.**
- A:** TSDS uses the AskTED application to determine whether campuses are active or inactive within an LEA. If the campus was inactivated **after** the CSW snapshot date, AskTED may still reflect the campus as active at the time of the snapshot, causing the data to promote and trigger a fatal error. Charters should submit campus closure requests to [CharterAskTED@tea.texas.gov](mailto:CharterAskTED@tea.texas.gov) as early as possible. If a campus is inactivated after the CSW snapshot date, the charter should submit a TIMS ticket for assistance.

- Submission Recap:**
- A three-business-day grace period was granted to those not in Complete status by the original submission due date.
  - Extensions granted for 119 LEAs/ESCs total for First Submission and Resubmission combined.
  - 1228 LEAs/ESCs completed First Submission and 1044 completed Resubmission.

- Lessons Learned:**
- During the first year of reporting **YearsTRATeachingExperience (E3129)** and **LEADeterminedTRAEligibility (E3130)** in the PEIMS Fall Submission, TEA observed that some LEAs did not report one or both data elements for eligible teachers, reported the elements independently rather than together or reported one or both data elements for non-teaching roles. This highlighted a need for additional system validations to better support complete and consistent reporting of Teacher Retention Allotment data. TEA is developing additional business rules and guidance to help prevent incomplete or inconsistent reporting in future collections. Additional rules will be published in the July 1, 2026, TEDS Addendum.

- What Changed and What's Next:**
- 2025-2026: Business rule updates
    - New: 41163-0109 and 41163-0110
    - Revised: 30060-0069 and 41163-0007
    - Deleted: 30090-0040
  - 2026-2027:
    - New business rule 40110-0241 to validate CampusIdOfResidence (E0903) against reported AskTED campus grade levels served.
    - As a result of the TEDS update, the PriorYearLeaver entity has been removed from PEIMS Fall and TEDS.
    - As a result of the TEDS update, the AsOfStatusLastFridayOctober data element has been removed from PEIMS Fall and TEDS.
    - IBC data will no longer be reported in PEIMS Fall; it will be reported in PEIMS Summer and PEIMS Extended Year.
    - GrievanceLink had a name change to LEAGrievanceLink and will only be promoted for districts. LEAGrievanceLink data published by Charters will not be promoted.

- 
- LangInstruProgramSvc (C335) for Bilingual and ESL services will be promoted as reported with the new three-digit descriptors. All affected reports and Access Data will be updated to reflect the changes.

Frequently  
Asked  
Question(s):

**Q: Are TEDS local courses promoted for the PEIMS Fall Submission?**

**A:** Yes, TEDS local courses are promoted to the PEIMS Fall Submission.

**Q: Is MonthlyMinutes (E1057) used to determine Teacher Retention Allotment (TRA) eligibility?**

**A:** Currently, TEA does not use MonthlyMinutes (E1057) to determine TRA eligibility. TRA eligibility is determined using YearsTRATEachingExperience (E3129), and LEADeterminedTRAEligibility (E3130) as reported by the LEA in the PEIMS Fall Submission. Additional information will be provided before TEA begins using MonthlyMinutes (E1057) to help determine TRA eligibility.

**Q: Our StaffClassification (E0721) data is correct in the SIS and is publishing successfully to the IODS. Why are the Role FTEs on the PDM-111-004 Staff FTE Summary report incorrect?**

**A:** Staff FTE calculations rely on MonthlyMinutes being included on the promoted staff responsibility data. While MonthlyMinutes are not required for the StaffSectionAssociation or StaffEducationOrganizationAssignmentAssociation to publish to the IODS, they are required for TEA to accurately calculate Role FTEs. When MonthlyMinutes are missing or incomplete, the data can publish and promote successfully but still result in incorrect FTE totals on the report.

**Q: I've updated my school information in AskTED, but I am still getting the fatal business rule 10020-0001 error in my data. Why hasn't TSDS been updated?**

**A:** TSDS does not update from AskTED in real time; AskTED data is refreshed in TSDS on a scheduled, periodic basis. If updates are made in AskTED after September 1, districts must submit a TIMS ticket to request a manual update. The request should include a screenshot of the updated AskTED information to support the change, including school status and grades taught.

- Submission Recap:**
- Ninety-four percent of LEAs were in Complete status by the submission due date.
  - Only three extension requests were submitted and approved.

- Lessons Learned:**
- LEAs must ensure all Student Assessment data is entered or transmitted to their ECDS KG vendor promptly after assessments are administered.
  - Before submitting a TIMS ticket, LEAs should review their assessment vendor's documentation and support resources.
  - LEAs should proactively coordinate with their assessment vendor to resolve UID issues and manage student assessment updates or deletions.

- What Changed and What's Next:**
- 2025-2026: No changes were implemented for this school year.
  - 2026-2027: Changes to the ECD0-000-004 Early Childhood KG Data Submission report include:
    - Restriction of incorrect staff from displaying when there has been a staff change on the section.
    - Restriction of duplicate assessment data from printing for semesterized classes with two teachers.

**Frequently Asked Question(s):** **Q: How do I report student assessment data for a KG special education student enrolled at my district, who is also part of a Co-op at another district and being assessed with a different instrument than what we administer at our district?**

**A:** The enrolling LEA would need to obtain from the Co-op district the assessment information (Assessment/Academic Subjects, Score Result, Administration Date, etc.). Additionally, the Student Assessment information from Co-op district that was uploaded would need to be deleted or it will cause a Fatal business validation that would prevent them from completing their ECDS KG Submission.

---

The enrolling LEA would then need to provide the following information in a TIMS ticket for the Co-op student being assessed with a different instrument at another LEA:

- An MOU between the enrolling district and Co-op district to share student assessment data.
- Co-op provided assessment data for the student(s).
- Assessment Application Key/Secret information in order for TEA to upload the assessment information to the enrolled district's IODS.

- Submission Recap:
- Extensions granted for 63 LEAs/ESCs for First Submission and Resubmission.
  - 1222 LEAs/ESCs completed First Submission and 567 completed Resubmission.
- 

- Lessons Learned:
- **Update AskTED Early:**  
LEAs must ensure AskTED is updated as early as possible, ideally between **May and June**, to avoid downstream reporting issues.
  - **Understand Actuals vs. Allocation Reports:**
    - **Use Actual reports** to validate financial data prior to the submission. These reports reflect LEA reported expenditures and are the primary validation tool.
    - **Review Allocation reports** to understand TEA’s calculated view of unallocated, district-wide expenditures.
  - **Follow SSA Reporting Requirements Carefully:**
    - Fiscal Agent LEAs must report:**
      - SSAOrgAssociationExt for current-year SSAs in **PEIMS Fall**.
      - PriorYearSSAOrgAssociationExt for prior-year SSAs in **PEIMS Mid-year**.
      - SharedServiceArrangementExt for all SSA member LEAs (including themselves) in **PEIMS Mid-year** to report financial actuals.
    - Member LEAs must report:**
      - SSAOrgAssociationExt for current-year SSAs in **PEIMS Fall**.
      - PriorYearSSAOrgAssociationExt for prior-year SSAs in **PEIMS Mid-year**.
- 

- What Changed and What's Next:
- No updates were implemented for the 2025–2026 school year, and no changes are anticipated for the 2026–2027 school year.
- 

- Frequently Asked Question(s):
- Q: What do I do if my LEA has not received the information from their auditors and will not be able to meet the current PEIMS Mid-year deadline?**
- A: The program area has stated: The district could have the auditor review their mid-year data before submitting it even though the audit is not**

---

**completed. PEIMS is the responsibility of the district and has to be submitted regardless if the audit is completed.** If further information is needed, please contact [sfinance@tea.texas.gov](mailto:sfinance@tea.texas.gov).

- What Changed and What's Next:**
- 2025-2026: A promotion logic change was made to ensure the last Disability and InstructionalSetting are promoted from prior year data, excluding a value of '00' for Disability or a null for InstructionalSetting.
  - 2026-2027: With the removal of the PriorYearLeaver-related entities from TEDS, changes will be made to the existing promotion logic to promote all SPPI-14 data from the prior year PEIMS submission data and IODS:
    - Prior Year PEIMS Summer (or Fall) Submission: Special Education Data
    - Prior Year PEIMS Summer and Extended Year Submissions:  
ExitWithdrawType
    - Prior Year IODS: Contact information for both Students and Parents
  - 2026-2027: Business rules 40203-0023, 40203-0024, 40203-0037 will be removed from TEDS.
    - NEW Business rule 40100-0291 will replace 40203-0023

- Submission Recap:**
- Ninety-eight point six percent of LEAs were in completed status on the due date.
  - Only nineteen extension requests were submitted and approved.
- 

- Lessons Learned:**
- It is important that LEAs carefully review the data reported for their TIA-eligible staff as early as possible to allow time for corrections to be published to the IODS and repromoted into the Core data mart.
- 

- What Changed and What's Next:**
- 2025-2026: A promotion logic change was made to ensure that only Staff who are employed with the LEA on the Class Roster Winter snapshot date will be promoted into the Core data mart.
  - 2026-2027: No changes are anticipated at this time.
- 

- Frequently Asked Question(s):**
- Q: How does an LEA maintain the beginning and expiration dates of Teacher Incentive Allotment (TIA) designations?**
- A:** TEA does not collect begin/end dates of designations. The LEA is expected to maintain that information locally. LEAs should only publish active designations to their IODS. LEAs can use their Strategic Compensation Operations Management System to check if they employ designated teachers.
