CONTENTS

UNIQUE ID

As of: March 18, 2019

Enrollment Events Processed:

- ☐ Batch Files **28,042**
- ☐ On-Line Entry **95,748**

ID Assignments Processed:

- ☐ Batch Files **47,094**
- ☐ On-Line Entry **12,697**
- ☐ Web Service calls **32,858**

REMINDER: Unique ID **assignment files** must not contain Enroll/Withdraw Event Type and Enroll/Withdraw Event Data.

REMINDER: Only **weekly** enrollment event changes are needed after the initial cumulative file has been processed.

REMINDER: Utilize the **TSDS UID Enrollment Submission Summary Report (UID0-000-006)** located in the **Global Reports Viewer** to monitor the weekly submission of an LEA's enrollment data loads.

Upcoming Change for 2019-2020:

The Unique ID system will be configured to allow **60 characters** for **First Name, Middle Name** and **Last Name**. This will be the same length allowed in the Operational Data Store (ODS) to ensure consistency across all TSDS applications.

- This is defined in TEDS final version publication (March 2019).
- This change will affect TSDS PEIMS and ECDS which include Reports, Application User Interfaces and Validation Rules where student/staff names are displayed.

- The only change is to the number of characters allowed.
- The domain of Values for these name fields is unchanged.
 - E0703 First-Name (**A-Z, 0-9, ', -, [space]**)
 - E0704 Middle-Name (**A-Z, 0-9, ', -, [space]**)
 - E0705 Last-Name (**A-Z, 0-9, ', -, [space]**)
- The validations for character lengths will be performed during batch upload and on-line entry of ID Assignments and Enrollment Events.
- This should minimize the number of UID discrepancies during PEIMS data submissions.

Why am I receiving an ‘Event Creation Failed’ error message when submitting my enrollment event file.

The file is not being processed due to duplicate trans_serial_numbers within the enrollment file. This is a unique number within the Unique ID application created when the data is processed.

The Unique ID application has been updated to resolve the issue. TEA is currently working with their vendor to clean up the duplicates that still exist in the application.

Guidance: LEAs are encouraged to submit a TIMS ticket with the duplicated trans_serial_number causing the ‘Event Creation Failed’. TEA will assist the LEA with deleting the duplicate to allow the processing of their submitted enrollment file.

Why do students show up on my UID0-000-001 Presumed Duplicate Student Report for Enrollment with only a withdrawal event listed from the previous LEA?

This is due to a missing entry event for that student in the current school year. The report logic is under review to determine if the previous year's entry (corresponding with the exit date) will correct this problem. Please continue to monitor the Known Issues and Release Notes for more information on when this issue will be resolved or for future guidance from TEA.

Can I edit an enrollment event from prior years?

No. The system will restrict a user from editing an event not within the current school year. If a prior year enrollment event needs to be edited, please open a TIMS ticket and TEA will work with that LEA on resolving the issue.

Updated Onboarding Process

- Streamlined process: An LEA only needs to submit one TIMS ticket to request the Dashboards. The “QA Dashboard” ticket is no longer needed.
- Refer to TSDSKB-499 for more information.

- **REMINDER:** LEAs no longer need to load prior year EducationOrganization and MasterSchedule interchanges to populate a student's historical transcript. This system requirement was removed in August 2018.
- Due to this change, any courses that have not been included in the current year EducationOrganization and MasterSchedule interchanges appear in the dashboards Student Transcript page with '**N/A**' (or blank) as the **course Description** and '**N/A**' as the **Subject Area**.

2019-2020 TEDS Change

To correct this issue, the following data elements will be **added** to the CourseTranscriptExtension complex type in the InterchangeStudentTranscriptExtension.

- **E1186 SUBJECT-AREA**
- **E1187 COURSE-DESCRIPTION**

The ODS and Dashboards will be updated in **August 2019** to allow for these additional elements.

End-of-Year (EOY) Data Loading:

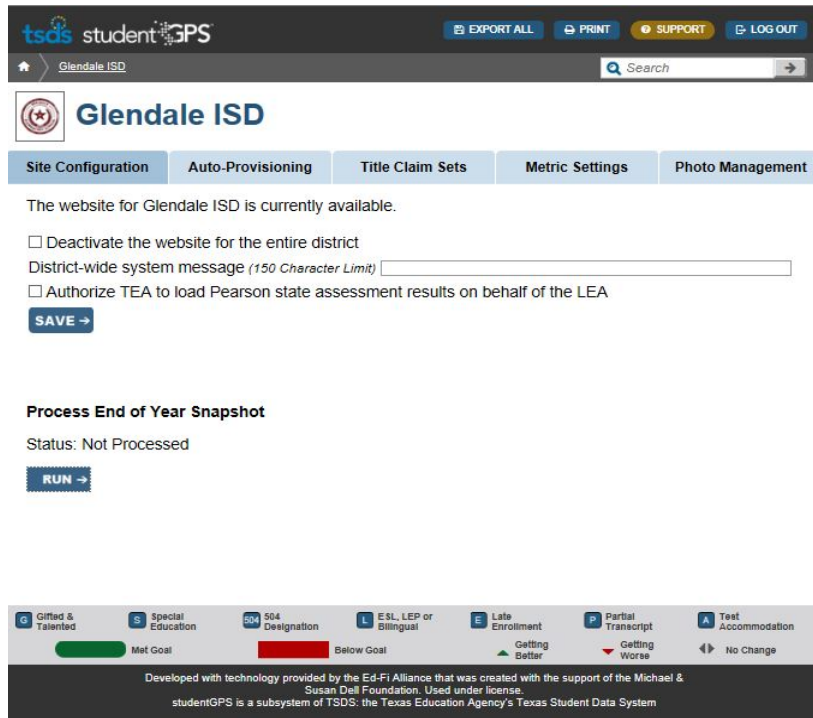

- State Assessments
- Final Attendance
- Final Grades

ESC Champions should work with participating LEAs to review the quality of their current Dashboard metrics and load any missing data.

LEAs are encouraged to verify STAAR results from the Spring and Summer administrations.

The EOY option will be available in **late May**.

TEA will complete processing for LEAs that choose not to run their own EOY snapshot.

The TSDS demo site is currently being updated.

New Functionality:

- Dynamic Watch Lists
- Configurable Student Goals and Grading Scales
- Usage Module

URL and login information:

- The URL will remain the same (tsdsdemo.com).
- Refer to TSDSKB-494 for login information.

Future Updates:

- Going forward, the TSDS demo site will be updated on a more frequent basis and will be closer aligned to the current version of dashboards in Production.

TEDS-AI:

- Texas Education Data Standards (TEDS) + Assessment Importer (AI)
- Allows users to convert specific assessment files into TEDS-compliant XML files that can be loaded to the ODS and viewed in the dashboards.

Assessment Conversion for:

- SAT
- PSAT
- ACT
- AP
- Eduphoria! Aware

- **New** assessment metrics will be **added** to the dashboards prior to end of 2018-2019 school year.
 - Texas Success Initiative (TSI) Assessment
 - Texas Kindergarten Entry Assessment (TX-KEA)
- TSDS integration is planned for TEDS-AI by the start of next school year.

PEIMS

Pending report issues for Summer:

- **PDM3-130-001** Superintendent's Report of Student Attendance
 - The totals for rows J through Q are a sum not an average
 - The cumulative section is not calculating correctly
- **PDM3-120-004** TSDS PEIMS Disaggregation of PEIMS Summer Attendance Data
 - Student Count by Grade is not correct
 - 'Percent in Attendance' section Days Membership column calculation is incorrect
- **PDM3-130-005** Comparison of Current and Prior Year Attendance
 - The refined ADA calculations are incorrect
- **PDM3-130-011** Flex Attendance – Superintendent's Report of Student Attendance
 - Incorrect FTE and ADA calculations
- **PDM3-130-014** Flex Attendance - Superintendent's Summary Report of Student Attendance
 - Incorrect FTE and ADA calculations

Pending report issues for Summer (continued):

- **PDM3-130-008** Superintendent's Summary Report of Student Attendance
 - Incorrect FTE and ADA calculations
- **PDM3-130-012** Flex Attendance – Superintendents Report of Career & Technical Education Eligible Days
 - Incorrect Eligible Minutes and Equivalent Days
- **PDM3-132-006** Campus Attendance Diagnostic Messages
 - Incorrect Incident count
- **PDM3-125-003** Student Restraint Events by Grade
 - Not showing student's Primary disability records when Primary Disability parameter is selected

Pending validation rule issues for Summer:

- **30040-0002**
 - Users are unable to promote staff members information when the staff member is assigned to service id's for both PK/KG and 1-12.
- **40110-0192**
 - If a student transfers between two LEAs, with one LEA having a DAEP/JJAEP and the other LEA does not, the LEA that does not have the DAEP/JJAEP is receiving the fatal validation rule for Campus ID of Accountability when they should not.

NEW TSDS COLLECTIONS & PROJECTS

The new Classroom Roster collection will be submitted two times per year, Fall and Winter.

- Classroom Roster Fall submission
 - As of the last Friday in September
 - Submission due date 10/15
- Classroom Roster Winter submission
 - As of the last Friday in February
 - Submission due date 3/15

The new collection will include the following complex types:

- Organization data:
 - LocalEducationAgencyExtension Complex Type
 - SchoolExtension Complex Type
- Campus Course Section data:
 - CourseOffering Complex Type
 - SectionExtension Complex Type
- Staff data:
 - StaffExtension Complex Type
 - TeacherSectionAssociationExtension Complex Type
- Student data:

Governance Approval:

- The data collection schedule has been presented and approved by all three governance committees.

TEDS Publication:

- The data collection was published in the 2019-2020 TEDS final version on March 1, 2019.

Begin Collecting data via TSDS:

- Classroom Roster collection will begin loading data in TSDS August 2019 for the 2019-2020 School year.

- The original plan was to move the organization data from its current database into the TSDS ODS.
- Upon further technical review, the decision has been made to **add effective date** and **historical tracking** to the **current database**.
- Starting with the 2019-2020 school year, TSDS applications will incorporate the effective date into the TSDS applications.
 - Effective Date of **Org Status changes**
 - Near real-time access to org data
 - DISTRICT-NAME & CAMPUS-NAME will no longer be submitted through InterchangeEducationOrganizationExtension
 - This name date will be retrieved from the org data.

- The TSDS team is currently working with the Foster Care Division on matching data from the Texas Department of Family & Protective Services (DFPS) with Unique ID data to assist LEAs with ensuring all Foster Care student are accurately reported in PEIMS.
- The goal is for DFPS to send a nightly or weekly file of their foster care students. TEA will attempt to match those students against Unique ID.
- Reports will be provided at the LEA level listing foster care students enrolled in their LEA.

- The TSDS teams are continuing to work on the web-enabled TEDS (TWEDS) application.
 - TEA has received feedback from a small work group of ESCs and is in the process of developing the application.
 - The deployment is scheduled for **August 2019**.
