Special Instructions
An associate degree is defined as an award that normally requires at least 2 but less than 4 years of full-time equivalent college work in a grouping of courses designed to lead the individual directly to employment in a specific career or to transfer to an upper-level baccalaureate program. This specifically refers to the associate of arts, associate of science, associate of applied arts, associate of applied science, associate of arts in teaching, and associate of occupational studies degrees. The term "applied" in an associate degree name indicates a program in which the content is primarily technical. (Source: Texas Higher Education Coordinating Board Glossary of Terms)

The district where the student received the associate degree will be the district to report his information. Schools should not wait to report the associate degree information at the point of graduation if the student earns the associate degree prior to graduation. It should be reported in the next PEIMS Submission after the degree is earned.

A student may be reported as having an associate degree at any point while in 11th or 12th grade, or by August 31 immediately following graduation. |

The SchoolID table includes: 701-703, 720, 750, 751, 998, 999, and all schools registered with the Texas Education Agency. Organization code 699 is only used for reporting financial information about Summer School. Organizations 700, 704-708, 721-725, and 752-799 are not available for use by school districts. If Object is 61XX-66XX, Organization is less than 699, and no match of Organization is found in the SchoolId table, Organization will be changed to 999 in TEA's longitudinal PEIMS database Main_PRD. If Object is not 61XX-66XX, then Organization will be changed to 000 in TEA's longitudinal PEIMS database Main_PRD. E0760	**PercentDayEmployed**	04/02/1987	03/01/2019

Definition
PercentDayEmployed is that percentage of a standard district workday for which the employee is hired to work. For an employee on contract, the percentage may be determined directly from the contract: full-time = "100"; half-time = "50"; and so on. For an employee who is not on contract, the percentage may be determined as follows.

Special Instructions
The value reported must be a whole number. If the computed value is greater than ". ##50...", use rounding to the next higher percent to avoid the use of decimals or fractions. For example, .6251 is reported as "63".   Example: The standard workday for the district is 7 hours. An employee is hired to work for 4 hours a day. This data element is coded as "57" for this employee because 4/7 = .571, which is rounded down.
